**Subject:** Letter concerning CRTC

Hello Steve,

I hope this letter finds you well?

CET&LC has a few questions concerning the CRTC. Looking over the committee, we see only one member that will be eligible after January 2009. One member has not been replaced since 2006.

CET&LC is concerned about the legitimacy of CRTC and what is in store for CRTC. There are many issues concerning trails on State Park lands; and CET&LC feels that an up to date committee is needed to continue the work effectively. CET&LC is getting the feeling that State Parks is not trying to change the committee membership to even listen to equine issues.

I know you keep saying it is up to the governor to appoint people to committees, but Steve, no serious changes for years, since 2006? Are things so chaotic in sacramento that a change on a committee cannot be made? I can see there might be more issues for changes on a Commission, like the problem with the OHV Commission. But the Committee, CRTC has been running for years.

CET&LC will have representation at the meeting on November 12. We do hope you will answer our (CET&LC) concerns regarding the makeup of the CRTC.

Respectfully.

John Keyes

Chairman: California Equestrian Trails and Lands Coalition
